## YOUR PRINT

Your print is one of a limited edition, it's recorded on Hahnemühle stock via a large format mimeograph and generally referred to as Giclée prints of premium quality. The paper is white 100% a-cellulose with a distinct textured surface and the premium matt inkjet coating more than meets the highest industry standards vis-à-vis density, colour gamut, colour gradation and image sharpness, while preserving the extraordinary touch and feel of genuine art paper.

## FRAMING

Here's some helpful advice on how best to handle your print;

1. The print is supplied in a durable tube that separates just above the middle of the tube.
2. Gently slide the protective covering, print and certificate from the tube.
3. Uncurl your poster onto a clean, dry surface.
4. Place a weighted object on each corner of the print, ideally leave to flatten overnight.
5. Choose a frame from a retailer of your choosing, your print can also be mounted on thick board.
6. Ensure your framed print is fixed to the wall with secure fixtures.
7. Enjoy.
